

# BOULEVARD CONTRACTORS CORP

VOLUME 04

## “Building Today's Dreams Into Tomorrow's Realities”

### Calvert Hall College

Calvert Hall College was founded on September 15, 1845. Since then, enrollment has grown in numbers. Having the necessity to expand, they relocated in September 1960 to their current location in Towson, MD. With the campus steadily growing in size, Boulevard Contractors has been assisting this institution with their upgrades and modifications, recently completing the installation of the new elevator to the Brother's Residences. We are very proud to be part of their ever growing campus and look forward to assisting Calvert Hall College on its upcoming construction projects.

### Days Inn

Our team is currently working on the interior and exterior renovations at the Days Inn located in Lanham, Maryland. We are excited to be renovating this hotel, giving it an updated look the guests will enjoy for many years to come. Renovations should be complete by mid spring 2016. We look forward to the continued relationship with this hotel.

### University of Maryland School of Dentistry

University of Maryland and Boulevard Contractors have been working side by side since the beginning of 2015 on exterior upgrades to their campus. We have demolished the previous loading dock to allow the students a new route to the school. We are working on re-building the loading dock giving it a fresher look. Upgrades should be complete by the fall of 2016. It has been a pleasure to work with this institution and be part of their continued growth.

### The Barclay School

Boulevard Contractors has had the opportunity to be part of the engineering lab renovation at The Barclay School located in Baltimore, Maryland. Renovations and upgrades done to the engineering lab will benefit in a great way, helping kids learn and work with the latest learning tools. We want to congratulate The Barclay School for their new engineering lab. As well we want to thank Whiting Turner, Johns Hopkins University and Baltimore City Public Schools for the opportunity to be part of such a great project.

# Who We Work For Here At Boulevard

## Education Sector

Our team is well versed in conducting renovations, modifications, and additions for all grade levels in our educational system. This includes both public and private institutions. Our expertise is completing construction and renovation projects in occupied spaces, allowing our clients to safely expand without disruption of classroom activities. Additionally, our team is well-knowledged in the processes required by both state and federally funded institutions. Some of the schools Boulevard Contractors have completed work for include the University of Maryland, College Park, University of Maryland, University College, Morgan State University, Bowie State University, Coppin State University, Calvert Hall College, Al-Rahmah School, Howard County Public Schools and Baltimore City Public Schools.

## Government Institution

Our company has established itself as a dependable partner in the public sector. While meeting contracting regulations, administrative requirements, budgets and deadlines with exceptional accuracy, Boulevard has completed multiple projects for many public departments ranging from the Department of Defense to local sectors.

## Commercial and Franchises

Boulevard Contractors has worked with many commercial companies and franchises over the years. Our team is able to make modifications, renovations or complete ground up construction for these organizations while maintaining the corporate or franchise standards, schedules and budgets.

## Religious Institutions

We value working with religious institutions and take pride in being sensitive to both beliefs and customs, while completing projects in a timely fashion. Boulevard Contractors has had the great privilege of completing renovations and additions to many religious institutions including; The Islamic Society of Baltimore, The Islamic Society of Annapolis, Saint Paul's Church, Christ Lutheran Church, i5 Church, Saint Joseph's Village, Emmanuel Lutheran Church and St Augustine Church. All of these projects have been located in the Baltimore and Washington Metropolitan region. We look forward to the opportunity to work with more religious institutions in the future.

## Healthcare Facilities

Conducting construction at a healthcare facility requires a lot of accuracy and proficiency to health care regulations in order to keep the area sterile and peaceful for the patients and staff. Our experience working around sensitive conditions where patient care must not be disturbed has been a facet of construction that we have successfully completed. Boulevard Contractors knows how to meet the difficult requirements and will do what it takes to insure everyone is comfortable while meeting deadlines and schedules.

The essential members of the Boulevard team have over 30 years of combined experience in the Construction industry. We work hard to keep costs low and efficiency high.
